Read the passage then choose the correct answer.(10)

Barbed wire

Barbed wire was invented in 1873.it was made of sharp metal diamonds that were held in place between two tightly twisted strands of wire. Since then more than four hundred different kinds of barbed wire have been developed.

In the early days barbed wire caused many fights. The fights occurred when cattlemen found grazing land blocked by another man's barbed – wire fences. In those days the barbs were long; they could cause terrible wounds. Cattle sometimes died after running into a barbed – wire fence.

Today barbed wire is not as dangerous. The barbs are shorter, and the wire is thicker and easier to see.
